encorafenib/binimetinib + cetuximab was 8 months and the estimated median OS was 15.3 months, with a median duration of follow-up of 18.2 months. Why do left- and right-sided tumors behave differently? N Engl J Med 2015;372:2509-2520.5.1 Drilon A, Laetsch TW, Kummar S et al. He maintains that additional treatment options, as well as additional detection and prevention options, are still badly needed. There are 4 consensus molecular subtypes (CMS) of CRC, classified as CMS1, CMS2, CMS3, and CMS4, which are associated with varying lengths of overall survival (OS).
